2 Gal. Round Inverted Regency Grand
Pressure Pivoted Chafing Dish W/Lion Legs

- * Heat resistant handle now standard on all chafing dishes.
- * As an optional feature Regency has patent pending a new dripless Chafing Dish Cover which is removable.
- * The evaporated steam will collect back into the food pan and not into the cover like most competitors, which can result into an unsanitary condition.
- * Cover remains open in any position with our new pressure pivoting mechanism which is now standard feature on most inverted style Chafing Dishes.
- * The cover is easily removed for cleaning purposes.
